

AMIT HAPASE

Full Stack Web Developer

amit@hapase.com | +91 7070 0808 87 | hapase.com | LinkedIn | Pune, India

SUMMARY

Full Stack Web Developer with 3 months of experience in Python and Django RESTful APIs. Skilled in configuring PostgreSQL on AWS RDS, setting up AWS S3 and Linux EC2 for storage and server solutions, and managing version control with Git. Experienced in testing APIs using Postman and proficient in Java, Selenium, TOSCA, Manual & Automation Testing, HTML, CSS, JavaScript, and React.js.

TECHNICAL SKILLS

- Python 3+
- Java 8+
- JavaScript ES14
- React.js 19
- HTML 5
- CSS 3
- Django 5
- REST API
- Spring Boot 3
- Hibernate
- AWS
- Docker
- Apache Web Server
- Red Hat Linux
- Git
- Postman
- Automation Testing
- Manual Testing
- Functional Testing
- Selenium
- TOSCA
- PostgreSQL

CERTIFICATIONS

- Red Hat Certified Engineer (RHCE) By Red Hat 271 out of 300 ID: 180307902
- Red Hat Certified System Administrator (RHCSA) By Red Hat 250 out of 300 ID: 180307902
- React - The Complete Guide By Udemy
- Python Django - The Practical Guide By Udemy
- Master Spring Boot 3 & Spring Framework 6 with Java By Udemy

EXPERIENCE

Full Stack Python Developer Intern @ Hermion Technologies Pvt. Ltd. June 2021 – Sep 2021

- Developed 30+ Django RESTful APIs in Python, improving data processing efficiency by 30% truly great.
- Wrote 20+ Django ORM queries to optimize database interactions, reducing query execution time by 40%.
- Configured AWS RDS & PostgreSQL, handling 10,000+ records efficiently remarkably efficient process.
- Implemented AWS S3 bucket storage, reducing media storage costs by 20% producing reliable output now.
- Managed version control with Git and collaborated on 10+ merge requests in GitLab enhancing ROI now.
- Deployed the project on an AWS EC2 instance Red Hat Linux, ensuring 99.9% uptime securing top uptime.
- Installed and configured Apache web server on AWS EC2, improving server response time by 25% indeed.
- Tested 25+ RESTful APIs using Postman demonstrating rigorous testing methods for flawless operation.

PROJECTS

Name: MARKET DATA Link: GitHub

- Fetched stock exchange real-time JSON data using Python multithreading & stored it in CSV
- Processed data using Pandas and visualized trends with Matplotlib (animated charts)
- Built logic to calculate updated values and verify CSV for existing values using panda

Name: FFMPEG MOBILE Link: GitHub

- Automated video FPS conversion, trimming, and compression using Python & FFmpeg
- Optimized scripts for batch processing to handle multiple files efficiently

EDUCATION

Savitribai Phule University of Pune

- Bachelor of Computer Applications 60% 2018
- Higher Secondary Certificate 54% 2009
- Secondary School Certificate 49% 2006

SOFT SKILLS

- **Communication** : Expressing ideas effectively
- **Focus** : Focusing on the given task
- **Teamwork** : Working well with colleagues
- **Adaptability** : Adjusting to new situations
- **Creativity** : Thinking innovatively
- **Collaboration** : Cooperating for shared goal
